Fall
2009

Begonias & Bonsai Arrive At Exotic Plants For Fall!

Rex Begonias have arrived at Exotic Plants for Fall. They are a great houseplant because they often thrive in lower light situations. Weekly watering, to keep the soil moist, and modern light will create a happy and thriving plant. They often enjoy a North facing window. Exotic Plants is now stocking a wide variety of interesting specimens .

These plants are happiest in temperatures 50 to 80 degrees., and do not do well in freezing temperatures. Rex Begonias never go dormant, so you can

expect a beautiful plant , if kept at the optimum temperatures.

Water weekly to dampen the soil and make sure the top soil has dried before the next watering. They enjoy mild fertilizer every two months.

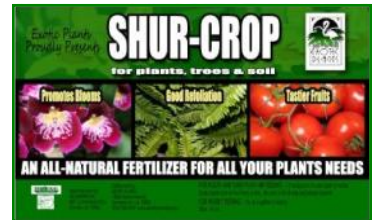

TIME FOR YOUR FALL HOUSECALL

For Fall we recommend an Exotic Plants House Call for your large or special interior plants.

Whether for your home or office, it is a good time for an annual cleaning, trimming, feeding, pest control and possible re-potting of your special plants. Exotic Plants offers these services for a \$90

fee, per hour We can handle most any sized plant or interior tree. And are very experienced with the special needs of larger plants and even atriums.

Exotic Plants is one of the foremost experts in caring for custom plant environments, as we celebrate our 37th year in business!

Shur-Crop is an organic fertilizer available exclusively through Exotic Plants.

Shur-Crop is made from sea kelp and active cultures. These ingredients encourage new and improved growth throughout the plant.

"You haven't gone green until the plants arrive!"

LIVING GREEN WITH LIVE PLANTS

We are very happy to celebrate our 37th anniversary at Exotic Plants! Despite all the ups and downs of the economy we are still alive and well, servicing our great Sacramento community. We've always been a very green company and now with the increased awareness of the need to preserve our environment, we find ourselves at the forefront of the most beautiful, aesthetic "go green" campaign there is, using live plants to clean the air naturally, reduce daily stress, and even cut down noise pollution! And we are very proud to service 5 LEED Certified Buildings (Leadership in Energy and Environmental Design)

Thank you Sacramento, for 37 wonderful years. We look forward to serving you for many more!
